## EXPERIENCE

### **Quicknet Home Fiber, Ongata Rongai, Kenya — Frontend Developer**

Jan 2022 - March 2022

I have worked as a frontend developer and maintained the codebase of our projects. I worked in a team of three to five software developers and I have used different agile methods of work such as Scrum and Kanban. I am an active learner who adapts to the company culture and work environment with ease as I aspire to bring more value to the company through my coding skills and good work ethic.

### **Side Hustle, Lagos, Nigeria — Frontend Developer Intern**

Sep 2021 - Dec 2021

During my internship at Side Hustle, I practiced writing code documentation, debugging code errors and maintaining the codebase. I also developed good networking and team collaboration skills while working with my colleagues.

### **Cooperative University Tech Club, Karen — Tech Mentor**

2019 - Present

I am a tech mentor volunteer at The Cooperative University of Kenya tech club. I have helped aspiring techies to get started into the tech industry through active inspiration and motivation by giving them support when need arises. I am looking forward to creating a great tech community around me and solving people's problems using my coding skills.
